**Keep Pennsylvania Beautiful Seeking High School Students for Young
Ambassadors Program for 24-25 School Year**

APPLICATIONS OPEN!

YOUNG AMBASSADOR PROGRAM ACCEPTING APPLICATIONS

In partnership with PennDOT, Keep Pennsylvania Beautiful is inviting students who will be in grades 10 -12 for the 2024-2025 school year to apply for the Young Ambassadors of Pennsylvania program.

The program builds community stewards and civic leaders by empowering young Pennsylvanians to become ambassadors in their community for a shared vision of a clean and beautiful Pennsylvania. Ambassadors will train and network with industry leaders, state agencies, local media and the Keep Pennsylvania Beautiful network to prepare them to be difference-makers in their communities by building their leadership and problem-solving skills. **Applications are being accepted through June 10.**

Over the nine-month program, Young Ambassadors of Pennsylvania will be guided through a six-step process to implement change in their communities. Keep Pennsylvania Beautiful will provide education and training to program participants on such topics related to the impact of litter on roadways, litter prevention, waste management and recycling, civic engagement and related public policy, volunteer management, and social media marketing. The program will provide networking opportunities to not only build a sense of community within the program but also to promote professional development of the individual students. In addition, Keep Pennsylvania Beautiful has partnered with Columbia Gas of Pennsylvania funded by the NiSource Charitable Foundation to provide Job Shadow Days to select Ambassadors.

Students interested in applying should visit keeppabeautiful.org or contact Kylie McCutcheon at 724-836-4121 x114 or kmccutcheon@keeppabeautiful.org.

Deadline to apply is June 10.

We would like to invite your eligible students to participate in the 2024 Pittsburgh Philharmonic Summer Student Program.

Instrumental students entering grades 8-12 are invited to apply and audition for an opportunity to play side-by-side with members of the Pittsburgh Philharmonic for the summer season. The repertoire will be light classical and pops, standard summer orchestra fare. This is a great opportunity for rehearsing and performing with experienced adult musicians, It's also a fantastic way to show your students that they can actively participate in music throughout their lives, even if they are not professional musicians!

Please see the attached literature for the application form, audition requirements, and performance dates. Auditions will be held on Monday, May 20, by appointment, at the PYCO School of Music. If there are any questions at all, please reach out to us, or have the students or their families reach out, and we can help them through the details.

In addition, we'd like to invite you and your students to our upcoming concert on May 19 at 4pm at the Greater Pittsburgh Masonic Center, 2579 Masonic Way. <https://pghphil.org/concerts/>

Thank you so much. Wishing you a not-too-stressful end of school year. We are hoping for the opportunity to play with some of your students this summer!

Congratulations to the Class of 2024

Corner of Positivity

Thank you for donating a deer heart, a pig heart, or a cow heart to Greensburg Central Catholic Junior-Senior High School's Anatomy and Physiology Classes. We dissected the hearts to learn about their structures and functions as we studied the Cardiovascular System. We used red and blue pencils to represent the pathway of oxygenated and deoxygenated blood. The Deer Heart Dissection Lab has become one of the most popular labs we do thanks to the contributions of deer hearts from hunters and pig and cow hearts from butchers.

Congratulations to those of you who had success this past deer season!

With appreciation,

Mrs. Colcombe and the GCC 2023 – 2024 Anatomy and Physiology Classes

Please turn the page over for more pictures.

On Friday, six of our students spent the day at the UPMC Clinical Laboratory in Pittsburgh where they spent the day learning about laboratory careers in hematology, virology, microbiology and tissue typing. Thanks to UPMC for the great opportunity and to our students for representing GCC so well!

The junior high science club met last week to dive into an engineering design challenge. Under time and budgetary constraints they had to build a car that could travel the farthest distance down a ramp. Thank you to Junior members of the Science National Honor Society for hosting such a fun event!

Congratulations to freshman Trixie Lim who earned a second place award at the PJAS State competition at Penn State University this week. Seventh grader Tommy Stilley won a first place award and a perfect score! Both students represented GCC so well as they presented their outstanding independent scientific research.
